How does a fire start?

How does a fire start?

5 minutes later...

In case of fire

Rescue and alert

Call 112

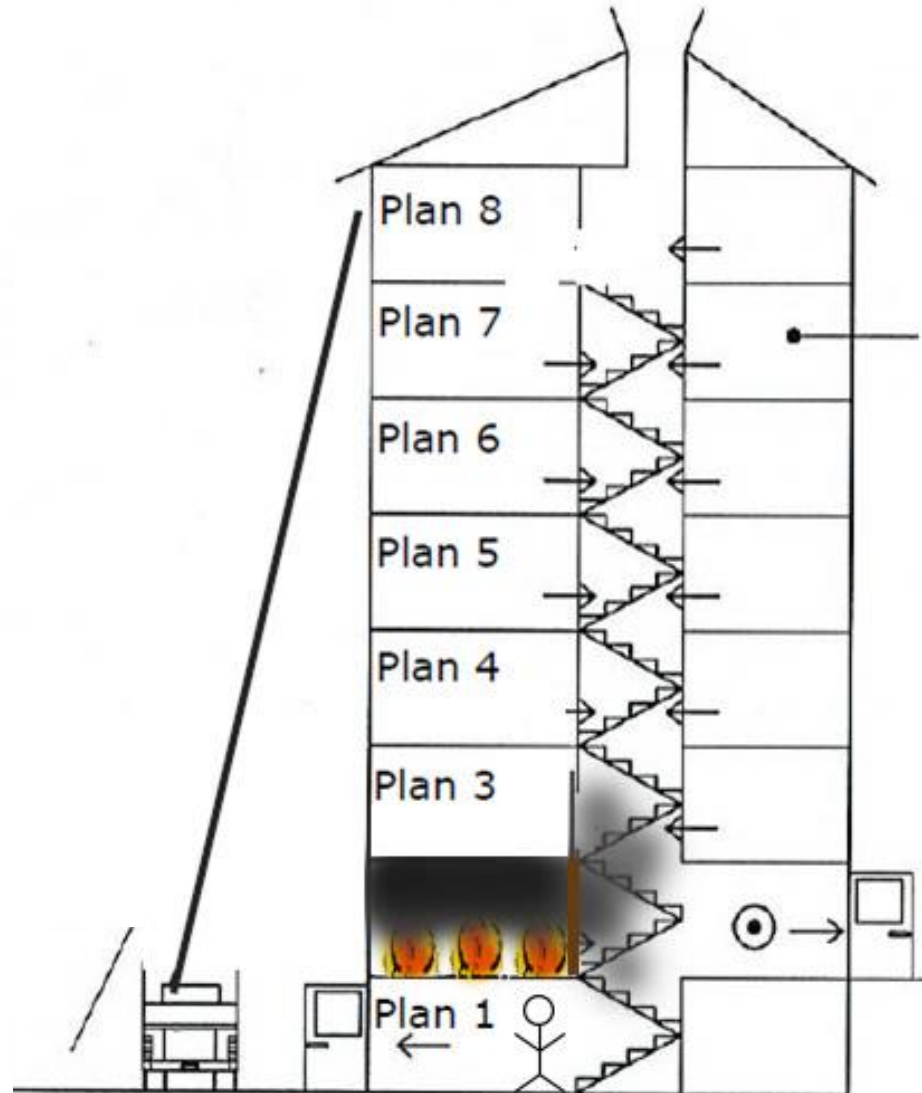

Extinguish

Meet us

The smoke kills!

Get down under the smoke!

- Less toxic environment
- Lower temperature
- Better vision

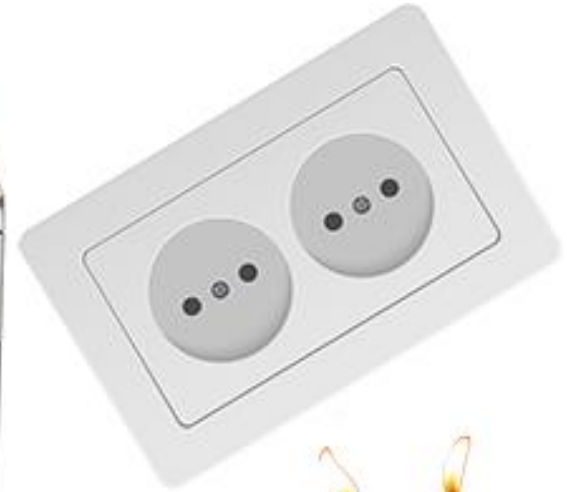

Shut the door!

The fire and the smoke is prevented from spreading in the building and the fire get less oxygen.

Common fire sources

Do you have the three of us at home?
