Comments

Fantastic support from GIO- Stefan and Mats

3 days is good, but we could just stay 2, one more day was actually needed

The only thing which would have improved my experience and help me make even more progress is if I had a colleague with me to discuss and write together with on the grant application.

What worked best?

What worked best?
Focusing on writing
The quiet location and GIO - support
Shut up & Write
First page concept
Tutoring/Group feedback
The coaching.
Many places (small rooms) to stay in.
That we could participate in workshops if we want or just write.
It doesn't matter what (books, papers etc.) you are writing or in witsch language.
Overall great to be able to get away and the facilitators were easy to book.
Good mixture between workshops and writing sessions, as well as activities. The best thing was that it was clear from the start that all activities are completely optional.
The workshop and feedback with Stefan and Mats

What could be improved?

What could be improved?
I guess it was intentionally that there were not many reminders for the workshops, but I would have preferred one, especially for the ones after lunch. We had the program and yes I could have set a timer myself, but I was so into writing that I basically forgot about all the activities.
For me, one more day for writing.
A little bit cold in the mainbuilding
Can't think of something right now
I had trouble getting into a flow this time. It would have been nice if we could have the rooms earlier and all the activities in one building. It was a bit annoying to have to pack up the computer and everything just to go and get fika.

What are your thoughts about how often the university should arrange this writing retreat and how often you might be able to attend?

What are your thoughts about how often the university should arrange this writing retreat and how often you might be able to attend?

I think the university should arrange the writing retreat at least once a year even though I might only be able to attend one time in a couple of years.

Every second a year I might be able to attend.

Once a year

Arranging about 4-6 times/year.

I would participate about 2 times/year

I would like to attend once a year and being able to choose spring or fall for flexibility reasons..

A writing retreat is fantastic because it allows us to focus on a specific task and think more creatively in a beautiful surrounding. I hope that the university can continue with this. We will be relying more on external funding in the near future and therefore time to work on grant applications should still be prioritised although we will have a tighter budget. If possible I would like to participate next year or even in 6 months again. But I have no clue about how often these retreats are intended to take place.

The food was fantastic at Två Skyttlar!!!

Twice a year would be nice to be able to choose, but would attend once a year

I think it is enough to arrange it once a year, but it could also be good to have it two times a year for flexibility.

Once a year, in the autumn
