

## A guide to using BrowZine

BrowZine is an app for tablets and smartphones that enables you to create a personal bookshelf of your favorite journals. You can browse the journals, read articles, and monitor new issues. It is possible to save and export articles. Many of the library's journals are available through BrowZine and new ones are added continuously.

To use BrowZine you have to download the app from the App store or Google Play to your tablet or smartphone. Then go to "Settings" and select Högskolan i Borås as your library and log in with your regular credentials. Now you can start creating your own library of journals.

## Browse Journal by Subject or Title

Once you have selected a journal the table of content of the latest issue is displayed

Library Table of Contents

Textile Research Journal Vol. 84 Issue 19 – 2014

In this list you can see all the available issues

ADD TO MY BOOKSHELF AVAILABLE ISSUES SHOW JOURNAL IN LIBRARY
