---

### Content

The course consists of research seminars where the doctoral students present their own research.

### Learning Outcomes

The main objectives of the course are that the student should be able to

- present and discuss their own research orally in dialogue with other doctoral students
- discuss other doctoral students research

### Forms of Teaching

Research presentations by doctoral students with subsequent discussions. Feedback on the doctoral students presentation skills and ability to explain their research to other doctoral students.

The language of instruction is primarily English. However, instruction in Swedish can occur.

### Forms of Examination

A passing grade requires

- active participation in ten additional presentations by other PhD students, 0,2 credits
- oral presentation with subsequent discussions, 0,8 credits

Student rights and obligations at examination are in accordance with guidelines and rules for the University of Borås.

### Literature and Other Teaching Methods

### Student Influence and Evaluation

The head of department and teacher responsible for the course are responsible for ensuring that students are invited systematically and regularly to put forward their views on the course. The results of the evaluations will be reported back to the students and will form the basis for the future structure of the course.
